

»**PONG**« is a minimalist homage to one of the earliest video games in history—a stylized form of tennis that could be played on a TV screen. Two paddles, one pixel—that's all it takes to embark on a journey into the past. The abstract composition in bold blue and white reduces the digital to its purest essence and turns it into a timeless art object. »**PONG**« symbolizes the playful origins of digital culture. It is part of the art series »Blue in a square«, featuring over 250 works.
